VOLUME 1

CHAPTER TITLES

Chapter 1	Organization
Chapter 2	Project Development
Chapter 3	Design Considerations and Criteria
Chapter 4	Alignment and Typical Section
Chapter 5	Geometrics
Chapter 6	Drainage
Chapter 7	Highway Structures
Chapter 8	Quantity Computation
Chapter 9	Utilities
Chapter 10	Right-of-Way
Chapter 11	Special Plan Elements
Chapter 12	Field Work
Chapter 13	Plans, Specifications and Estimate

VOLUME 2

CHAPTER TITLES

Chapter 1	Typical Sections
Chapter 2	Sample Layouts
Chapter 3	Right-of-Way Plans
Chapter 4	Wetland Plans
Chapter 5	Construction Plans

Chapter 1 Organization

	Page
Introduction	1-1
New Hampshire Department of Transportation	1-1
Vision Statement	1-1
Mission Statement	1-1
Organization	1-2
Laws Regulating Functions	1-2
Bureau of Highway Design	1-3
Regulations	1-3
Organization	1-3
Functions and Responsibilities	1-3
Related Bureaus and Organizations	1-6
Other NHDOT Bureaus	1-6
Organizations Outside the NHDOT	1-9

Chapter 2 Project Development

Introduction	2-1
Highway Classifications and Programs	2-1
State Highway System Classification	2-1
Federal Aid System Classification	2-2
Federal Aid Functional Classification	2-3
Federal Aid Programs	2-3
Project Numbering System	2-4
The Project Development Process	2-4

Chapter 3 Design Considerations and Criteria

Introduction	3-1
Considerations	3-1
Safety	3-1
Environmental	3-2
Cost	3-2
Constructability	3-2
Maintenance	3-4
Highway Function	3-5

Criteria.....	3-5
Design Data.....	3-6
Guide Publications.....	3-6
Other References.....	3-7
Design Exceptions.....	3-7
Basic Factors Influencing Design.....	3-8
Traffic Volume.....	3-8
Design Elements.....	3-9
Environmental Considerations.....	3-16
Level of Service.....	3-17
Major Design Elements.....	3-20
Other Design Elements.....	3-20
Pedestrian/Bicycle Facilities.....	3-20
Railroad Grade Crossing.....	3-21
Drainage.....	3-22
Utilities.....	3-23
Airport Clearances.....	3-24

Chapter 4 Alignment and Typical Section

Introduction.....	4-1
Horizontal and Vertical Alignment.....	4-1
Design Control.....	4-1
Line-Grade Coordination.....	4-1
Location Surveys.....	4-3
Horizontal Alignment.....	4-3
General Controls.....	4-3
Sight Distance.....	4-4
Passing Opportunities.....	4-5
Intersection Sight Distance.....	4-5
Horizontal Curves.....	4-11
Vertical Alignment.....	4-25
General Controls.....	4-25
Vehicle Operating Characteristics.....	4-25
Maximum Grades.....	4-26
Minimum Grades.....	4-26
Climbing Lanes.....	4-26
Emergency Escape Ramps.....	4-28
Vertical Curves.....	4-29
Establishing Grade.....	4-39

Balancing Earthwork.....	4-43
Erosion Prevention	4-43
Typical Section.....	4-44
Information to be Shown.....	4-44
Rural and Urban Sections.....	4-44
Special Projects	4-44
Pavement Design.....	4-45
Geotechnical Report.....	4-45
Materials Availability Report.....	4-46
Computation	4-46
Early Selection of Typical Section.....	4-46

Chapter 5 Geometrics

Introduction	5-1
Geometric Design Criteria.....	5-1
Fixed Criteria.....	5-2
Minimum Criteria.....	5-2
Departure From Criteria	5-2
Design Controls.....	5-2
Traffic Volumes	5-2
Design Speed.....	5-3
Operating Speed	5-4
Capacity.....	5-5
Design Vehicles.....	5-6
Minimum Turning Path.....	5-6
At-Grade Intersections.....	5-7
General Types.....	5-7
Crossing Alignment.....	5-7
Pavement Widths.....	5-8
Speed Change Lanes.....	5-8
Sight Distance.....	5-9
Intersection Sight Distance.....	5-9
Intersection Spacing	5-10
Storage Lanes	5-10
Channelization.....	5-11
Traffic Control Signals.....	5-15
Signing and Pavement Marking	5-15

Interchange Design.....	5-16
Types of Interchanges.....	5-16
Trends in Design	5-16
Spacing	5-17
Collector-Distributor Roads	5-17
Speed Change Lanes.....	5-17
Lane Balance	5-17
Weaving Sections.....	5-18
Ramp Spacing.....	5-18
Ramp Design Speed	5-19
Ramp Alignment	5-19
Ramp Grades	5-19
Ramp Section	5-20
Ramp Terminals	5-20
Drive Access and Service Facilities	5-22
Driveway Access.....	5-22
Service Facilities	5-23
Local Streets.....	5-25
Special Purpose Roads	5-25
Preliminary Study Procedure.....	5-25

Chapter 6 Drainage

Introduction	6-1
Responsibility.....	6-1
Coordination.....	6-1
Survey and Field Information.....	6-1
Permits.....	6-2
Drainage Review and Approval	6-3
Guidelines and Procedures	6-3
Runoff Computations	6-4
Storm Design Frequency	6-4
Detention Basins.....	6-5
Storm Sewers.....	6-6
Control of Flow	6-6
Runoff Discharge Tabulation	6-6
Sizing Storm Sewers	6-6
Ponding Limits on Roadway	6-7
Catch Basins and Drop Inlets	6-8
Underdrain.....	6-8

Culverts	6-8
Type.....	6-8
Strength Requirements	6-9
Location.....	6-10
Environmental Issues	6-10
Culvert End Treatments.....	6-11
Improved Culvert Entrances.....	6-12
Flow Control	6-12
Open Channels (Ditches).....	6-13
Size and Shape	6-13
Capacity computations	6-13
Alignment and Grade	6-14
Erosion Protection	6-14
Median Drainage	6-14
Erosion Control	6-15
Water Quality	6-15

Chapter 7 Highway Structures

Introduction	7-1
General Procedure	7-1
Safety.....	7-1
Bridge Design.....	7-2
Establishing Bridge Criteria	7-2
Initial Bridge Plan Coordination	7-3
Final Bridge Plan Coordination.....	7-3
Retaining Walls	7-4
Reinforced Concrete Walls	7-4
Bin-Type Walls	7-5
Gabions.....	7-6
Drainage Structure Headwalls.....	7-7
Mortar Rubble Masonry Walls.....	7-7
Mechanically Stabilized Earth Walls	7-7
Steel Sheet Pile Walls	7-9
Sign, Light and Signal Supports.....	7-10
Pavement Structure.....	7-10

Chapter 8 Quantity Computation

Introduction	8-1
Division 200 - Earthwork	8-4
Earthwork Summary Sheet.....	8-14
Division 300 - Base Courses	8-23
Division 400 - Pavements	8-25
Division 500 - Structures.....	8-30
Division 600 - Incidental Construction	8-36

Chapter 9 Utilities

Introduction	9-1
General	9-1
Jurisdiction	9-1
Reimbursement.....	9-2
Responsibility	9-4
Utility.....	9-4
Bureaus of Highway Design and Bridge Design.....	9-5
Bureau of Construction	9-5
Bureau of Right-of-Way.....	9-6
Procedure.....	9-6
Highway Projects.....	9-6
Lighting	9-7
State Force Account Projects	9-7
Railroad Grade Crossing Projects	9-7
Railroad Grade Separation	9-8
Utility or Railroad Force Account Projects.....	9-8
Working Arrangements	9-8
Location and Design.....	9-8
Traffic Control.....	9-9
Utility Relocation Process	9-10
Design Phase	9-10
Construction Phase.....	9-12

Chapter 10 Right-of-Way

Introduction	10-1
Right-of-Way Operation.....	10-1
General Organization	10-1
Function.....	10-1
Procedure.....	10-3
Right-of-Way Plans.....	10-5
Right-of-Way Conveyances	10-5
Easements.....	10-6
Access Control	10-16
Fencing Right-of-Way.....	10-17
Existing Fencing.....	10-17
Proposed Fencing	10-17
Public Meetings.....	10-18
Relocation Assistance.....	10-20
Utilities	10-20
Building Removal.....	10-21
Abandonment	10-21
Reclassification	10-21
Recording ROW Plans	10-22

Chapter 11 Special Plan Elements

Introduction	11-1
Safety.....	11-1
Barriers.....	11-1
Guardrail.....	11-2
Concrete Barrier	11-4
Impact Attenuators	11-5
Glare Screens.....	11-6
Traffic Operations	11-7
Lighting	11-7
Signs	11-8
Signals	11-8
Maintenance of Traffic.....	11-9
Traffic Control Plan.....	11-9

Construction Signs	11-10
Haul Roads	11-10
Detours	11-10
Roadside Improvements	11-11
Landscaping.....	11-11
Wetland Mitigation Areas	11-11
Rest Areas.....	11-12
Safety Inspection Areas and Truck Weigh Stations.....	11-12
Pedestrian, Bicycle and Non-Highway User Facilities.....	11-12
Commuter Parking Lots	11-13
Environmental Elements	11-14
Noise Barriers.....	11-14
Erosion Control	11-14

Chapter 12
Field Work

Introduction	12-1
Field Survey.....	12-1
Preliminary Survey.....	12-2
Construction Plans Survey	12-3
Computations	12-3
Plotting	12-3
Other Field Information.....	12-4
Aerial Survey.....	12-5
Subsurface Investigation	12-6

Chapter 13
Plans, Specifications and Estimate

Introduction	13-1
Plans	13-2
Specifications	13-2
Estimate.....	13-3
(Bid) Proposal.....	13-5
Revisions During Advertisement	13-7
Revisions After Advertisement	13-8

LIST OF FIGURES

	Page
3-1	Design Data 3-6
3-2	Minimum Vertical Clearances..... 3-10
3-3	Design Criteria Based on Design Speed..... 3-16
3-4	Grade for Selection of Design Levels of Service 3-18
3-5	Level of Service Characteristics by Highway Type 3-19
3-6	Railroad Crossing - Slow Lanes..... 3-22
3-7	Air - Highway Clearances 3-25
4-1	Sight Distance at Intersections, Minimum Sight Triangle 4-7
4-2	Intersection Sight Distance..... 4-8
4-3	Case III Intersection Sight Distance..... 4-9
4-4	Sight Distance at Intersections for Crossing Maneuver 4-10
4-5	Simple Curve Definition 4-12
4-6	Concentric Alignments..... 4-13
4-7	Non-Concentric Alignments..... 4-14
4-8	Superelevation Transition Diagram..... 4-21
4-9	Spiral Curve Superelevation Transitions..... 4-22
4-10	Simple Curve Superelevation Transitions 4-23
4-11	Superelevation Data 4-24
4-12	Types of Vertical Curves..... 4-30
4-13	Crest Vertical Curve (basic components)..... 4-32
4-14	Crest Vertical Curves (Design Controls for Stopping Sight Distance - Upper Range) 4-33 (Design Controls for Stopping Sight Distance - Lower Range)..... 4-33
4-15	Sag Vertical Curves (Design Controls - Upper Range)..... 4-34 (Design Controls - Lower Range) 4-34
4-16	Stopping Sight Distance 4-36
4-17	Passing Sight Distance 4-37
4-18	Headlight Sight Distance..... 4-38
5-1	Measurement of Sight Distance at Diamond Ramp Terminals..... 5-21
5-2	Deterrents to Wrong Way Turns at Diamond Interchange Ramp Terminals..... 5-21
7-1	Cantilever Wall 7-5
7-2	Bin-Type Retaining Wall 7-6
7-3	Gabion - Type Retaining Wall 7-6
7-4	Mortar Rubble Masonry Retaining Wall..... 7-7
7-5	Mechanically Stabilized Earth (MSE) Retaining Wall 7-8
7-6	Sheet Pile Retaining Wall 7-9

8-1	Clearing and Grubbing (plan) Measurement.....	8-5
8-2	Roadway Cross Section Showing Excavation and Embankment.....	8-9
8-3	Earthwork Quantities Sheet.....	8-11
8-4	Earthwork Summary Sheet.....	8-13, 8-14
8-5	Muck Excavation in Section	8-15
8-6	Topsoil Removed Beneath Fill Section.....	8-16
8-7	Unclassified Channel Excavation, Roadway.....	8-17
8-8	Full for Rock Cut Earth Berms.....	8-20
8-9	Roadway and Ditch Excavation Pay Limits.....	8-22
8-10	Paved Driveway Section (Fill)	8-27
8-11	Paved Driveway Section (Cut).....	8-28
8-12	Retaining Wall to Illustrate Calculations	8-30
8-13	Plan and Section View to Calculate Stone Fill.....	8-34
8-14	Plan and Section View to Calculate Drainage.....	8-36
8-15	Channel Section View to Calculate Stone Fill	8-39
8-16	Headwall View to Calculate Common Structure Excavation	8-40
10-1	Slope Easement	10-7
10-2	Slope Easement for Ditch.....	10-7
10-3	Drainage/Channel Easement for Culvert.....	10-8
10-4	Drainage/Channel Easement for Closed Drainage Along Ditch Line.....	10-9
10-5	Drainage/Channel Easement for Permanent Erosion Control.....	10-10
10-6	Retaining Wall Easement	10-11
10-7	Stone Walls with LAROW or CAROW	10-12
10-8	Sight Line Easement.....	10-13
10-9	Temporary Drive Easement.....	10-14
10-10	Temporary Traffic Control Easement.....	10-15
10-11	Combination Easements	10-16

LIST OF TABLES

	Page
4-1	Design Elements for Horizontal Curvature, $e_{\max}=4\%$ (Urban)..... 4-16
4-2	Design Elements for Horizontal Curvature, $e_{\max}=6\%$ (Ramps) 4-17
4-3	Design Elements for Horizontal Curvature, $e_{\max}=8\%$ (Open Highway) 4-18
4-4	Relationship of Design Speed to Maximum Relative Profile Gradients..... 4-20
4-5	Critical Length of Grade..... 4-27
4-6	Range of Design Controls for Vertical Curves..... 4-35
4-7	Minimum vertical Curve Lengths 4-39
4-8	Plotting Vertical Curves 4-40
5-1	Design Speed Ranges 5-4
5-2	Stopping and Decision Sight Distance 5-10
8-1	Earthwork Computations..... 8-12
10-1	Bureau of Right-of-Way Organization Chart..... 10-2

LIST OF APPENDICES

- 1-1 NHDOT Organization Chart
- 1-2 Maintenance District Layout Map
- 1-3 Highway Design Organization Chart

- 2-1 Project Development Flow Chart
- 2-2 Request for Project Authorization
- 2-3 Request for Traffic Forecasts
- 2-4 Request for Accident Study
- 2-5 Survey Request
- 2-6 (Sample) Engineering Report
- 2-7 Request for Environmental Review
- 2-7A Request for Initial Environmental Review
- 2-8 (Partial) Engineering Considerations Check List
- 2-9 Pre-Hearing Final Design Review Guidelines
- 2-10 Legend
- 2-11 (Sample) Geotechnical Report for Highway Projects
- 2-12 Construction Contract Time Determination Process
- 2-13 (Sample) Consultant Agreement Article I
- 2-14 Wetland Plans Check List
- 2-15 Wetlands Bureau Permit Application Guidelines
- 2-16 (60%) Preliminary Plan Coordination Meeting Notice
- 2-17 Request for Printing/Reproduction
- 2-18 Pre-Advertisement Coordination Meeting Notice
- 2-19 Meeting Notice to Brief the Director of Project Development
- 2-20 Distribution of Plans

- 3-1 Excerpts from FHWA Federal Aid Policy Guide relating to Design Standards
- 3-2 Patented/Proprietary Products
- 3-3 Design Exception - Overview Project
- 3-4 Design Exception - Exempt Project
- 3-5 Vertical Clearance, Interstate System
- 3-6 Conference Report - AASHTO vs. MUTCD Passing Sight Distance
- 3-7 Environmental Commitments Guidelines

- 5-1 Turning Templates
- 5-2 Queue Length Calculations
- 5-3 Application for Driveway Permit
- 5-4 Driveway Permit
- 5-5 Major Commercial Access Permit Flow Diagram
- 5-6 Parking Stall Layout Elements
- 5-7 Truck Parking Layout

- 6-1 Erosion & Sedimentation Control and Stormwater Management Policy

- 7-1 Flexible Pavement Analysis

- 8-1 Highway Design Calculation Sheet
- 8-2 Common Structure Excavation Diagram for a Closed Drainage System
- 8-3 Common Structure Excavation Diagram for a Culvert
- 8-4 Erosion Control Detail Sheet

- 9-1 Utility Coordination, Relocation and Force Account Process Flow Diagram
- 9-2 Utility Request

- 10-1 Sample ROW Plans Submittal Memo
- 10-2 Abstracting Request Form
- 10-3 Right-of-Way Plans Checklist
- 10-4 Federal Energy Regulatory Commission (FERC)
- 10-5 Right-of-Way Certificate
- 10-6 Request for Public Hearing Check List
- 10-7 Combined Corridor Design Public Hearing
- 10-8 Roadway Reclassification Memo

- 13-1 Construction Plans Check List
- 13-2 Item Description Master File
- 13-3 Estimate Guidelines
- 13-4 Information to Specifications Engineer for Proposal
- 13-5 (Sample) Prosecution of Work
- 13-6 (Sample) Traffic Control Plan
- 13-7 (Sample) Supplemental Project Information Sheet
- 13-8 (Sample) Construction Work Zone
- 13-9 (Sample) Addendum for Revisions After Advertisement
- 13-10 Drainage Note Format
