

Project:	Bristol 40636 & Bristol 41579 Preliminary Design – Roadway improvements to Summer Street (NH 104) and Lake Street (NH 3A) QUALIFICATIONS-BASED SELECTION CONTRACT
Posting Date:	June 23, 2023
Scope of Work:	<p>The Projects include preliminary engineering, survey, public involvement, right-of-way, final design, and associated environmental services for two (2) roadway improvement projects in the Town of Bristol. The limits of the 40636 (Summer Street, NH 104) project are approximately from School St. easterly 1.0 miles to Ayers Island Rd and the limits of the 41579 (Lake Street, NH 3A) project are approximately from Pleasant Street northerly 0.9 miles to the Mill Stream Park recreation trail. Improvements to Summer Street (NH 104) and Lake Street (NH 3A) include road widening or reconstruction and construction of an active transportation corridor, including streetscape elements to create improved bicycle and pedestrian facilities. The current advertising date for each project is July 24, 2029.</p> <p>The scope of work may include:</p> <ul style="list-style-type: none"> • Preliminary design to develop and evaluate alternatives • Environmental investigations to prepare and complete all appropriate environmental documentation to satisfy NEPA and all necessary permitting. • Public outreach and involvement support services, including a Public Hearing • ROW layout and plan development, including any necessary survey work, for reestablishing and documenting the existing highway right-of-way in a manner suitable for recording at the Registry of Deeds. • Roadway final design associated with the preferred alternative • Drainage and culvert design, including appropriate water quality evaluations • Construction traffic control design • Contract Plans and Document • Construction support services • Concurrent contract administration • For additional information see the 40636 scope of work checklist and the 41579 scope of work checklist. <p>Environmental efforts are needed to prepare and complete all appropriate environmental documentation and permitting, to satisfy NEPA, State, and Federal requirements.</p> <p>The Consultant will also be required to assist the Department in the public involvement process, including a formal Public Hearing for the preferred alternative.</p> <p>This work will require Professional Engineer and Land Surveyor licensure in the State of New Hampshire.</p> <p>This multi-phase project requires Preliminary Design and Final Design services. This solicitation is for Preliminary Design only. At the conclusion of Preliminary Design, the Department reserves the right to either negotiate a scope and fee for Final Design for one or both projects individually or combined or terminate the contract.</p> <p>Consultants submitting a Letter of Interest will be assessed on their capability to perform the above-mentioned services, additional referenced services for the Bristol 40636 & Bristol 41579 projects, other relevant project experience with references noted, and their current workload with the Department.</p> <p>The compensation format for this agreement will be cost-plus-fixed-fee.</p>
