DEPARTMENT OF TRANSPORTATION

PROJECT SOLOCITING FOR INTEREST

William Cass, P.E.
Commissioner

David Rodrigue, P.E.
Assistant Commissioner
Andre Briere, Colonel, USAF (RET)
Deputy Commissioner

MOULTONBOROUGH 41581 & MOULTONBOROUGH 42602
Preliminary and Final Design – NH 25/Sheridan Road and NH 25/Redding Lane Intersection
Improvements
QUALIFICATIONS-BASED SELECTION CONTRACT

POSTING DATE: October 12, 2023

SCOPE OF WORK:

The Projects include preliminary design, survey, public involvement, final design, and associated environmental & cultural services for two (2) intersections in the Town of Moultonborough. The planned improvements include the intersections of NH 25/Sheridan Lane and NH 25/Redding Lane to address safety and improve traffic operations. The intersection improvements are based on the “NH Route 25 Corridor Study – April 2008” prepared by the Lakes Region Planning Commission, available under the “Project Specific Information” section of the Department’s website. The alternatives may include intersection control and realignment, roadway widening and auxiliary lanes, roundabout, and improvements to address all transportation modes. The advertising date for each is planned in the current Ten-Year Plan.

Scope of work may include:

- Preliminary design to identify deficiencies and develop alternatives
- Environmental investigations to prepare and complete all appropriate environmental documentation to satisfy NEPA.
- Public outreach and involvement support services, including a Public Hearing
- ROW layout and plan development, including any necessary survey work, for reestablishing and documenting the existing highway right-of-way in a manner suitable for recording at the Registry of Deeds.
- Roadway design associated with the preferred alternative
- Traffic data collection, intersection alternatives & analysis
- Highway safety analysis
- Drainage and culvert design, including appropriate water quality evaluations
- Maintenance of traffic in order to accommodate vehicular/pedestrian traffic during construction by means of stage construction/detour.
- Retaining wall design and layout
- Construction traffic control design
- Contract plans and documents
- Construction support services
- Concurrent contract administration
- For additional information see scope of work checklist

This work will require Professional Engineer and Land Surveyor licensure in the State of New Hampshire. This multi-phase project requires Preliminary Design (Part “B”) and Final Design (Part “C”) services. This solicitation is for Preliminary Design (Part “B”) only. At the conclusion of the Preliminary Design, the Department reserves the right to either negotiate a scope and fee for Final Design or terminate the contract.

Consultants submitting a Letter of Interest will be assessed on their capability to perform the above-mentioned services, additional referenced services for the Moultonborough 41581 & Moultonborough 42602 projects, other related project experiences with project references noted, and their current workload with the Department.

The compensation format for of this agreement will be cost-plus-fixed-fee.

CONTACT INFORMATION:

For additional information contact Jason Ayotte, PE, Project Manager, Bureau of Highway Design, at (603) 271-3921, or jason.m.ayotte@dot.nh.gov.
